### Spare parts:

- 3/8" center tube/seal (Regular).....SE01-01
- 1/2" center tube/seal (Large).....SE02-01
- 3/8" anti-sediment tip.....SE01-02
- 1/2" anti-sediment tip.....SE02-02

## Auto-Siphon Clamp

Clamp holds Auto-Siphon securely. For use with buckets, carboys and gallon jugs. Design allows you to park your Fermtech Siphon Valve!

- Available in two sizes:
- 3/8" Regular and Mini Auto-Siphons.....SEI1
- 1/2" Large Auto-Siphon.....SEI2

## Bottle Fillers

Enjoy hands-free filling with Fermtech's spring-less fillers!

### The Siphon Valve.....SE03

- Most popular size for wine and beer
- Its 3/8" clear acrylic tubing fits a standard 5/16" (8mm) x 7/16" hose
- Display box available

### The Wine Filler.....SE04

- High capacity filler for the volume wine maker (25 bottles in 8 minutes)
- Its 1/2" acrylic tubing fits a 7/16" (11mm) x 9/16" siphon hose

## Bottle Fillers

Enjoy hands-free filling with Fermtech's spring-less fillers!

### The ProFiller.....SEI6

The ProFiller's open flow design reduces bottling time and can be used with all bottle types.

- Unique filler tip allows greater control and precision when topping up
- Convenience clip for easy pausing or stopping
- Tapered hose connection fits 5/16" (8mm) bore hoses
- Tapered hose connection and convenience clip are included

## Bottle Washers

### The Blast Bottle Washer.....BW01

- Automatic operation — press to rinse, lift to stop
- Easy on plumbing — eliminates water-hammer damage
- Durable enough for commercial use
- Use nozzle to rinse siphons and filters
- Hot or cold water

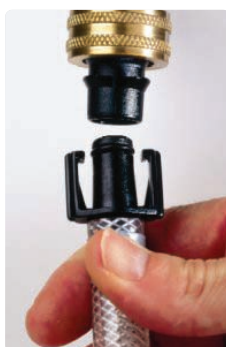

### The Double Blast Bottle Washer.....BW02

- Includes a quick-connect system for easy hook-up
- Wide base provides stable operation in any sink and eliminates stress on any faucet
- Temperature resistant to 140°F

### Spare parts:

- Spray Nozzle Set — 2 small, 1 large.....BW02-01

## Bottle Washing Accessories

### Kitchen Faucet Adapter.....BW03

- Durable nickel-plated brass
- Dual kitchen faucet thread fits most faucets

### Quick-Connect Utility Hose.....BW04

- Includes 5' of 1/2" vinyl hose and 1 male connector
- For general rinsing and filling
- For use with The Double Blast Bottle Washer (BW02) only

## Test Equipment

### The Thief.....TE01

- Acrylic for excellent clarity
- Easy to clean
- 19" long

1. Dip for a quick sample.
2. Place your standard hydrometer directly into The Thief.
3. Touch tip against container to empty The Thief.

## Hydrometer Sample Jars

- Acrylic for excellent clarity, securely bonded to an impact-resistant base
- Sizes available:

10".....TE02

12".....TE03

14".....TE04

## Wine on Tap.....WT01

- Why bottle ALL of your wine?
- Wine dispenser keeps up to 9 bottles of wine fresh for 6 months
- Store on a shelf or in a fridge
- Includes:

1 Wine-on-Tap Container and Spout Retainer

1 Deluxe Dispensing Tap

1 Sanitized Oxygen Barrier Bag

### Two ways to use:

1. The included Wine-on-Tap bag with Deluxe Dispensing Tap is pre-sanitized and intended for single use operation. Replacement Wine-on-Tap bags are available.

### OR

2. Reuse your wine kit bag with a standard dispensing tap readily available at homebrew shops.

### Replacement Wine-on-Tap Bags.....WT02

(Package of 3, Deluxe Dispensing Taps included)

### Spare parts:

Spout Retainer/Ring.....WT01-01

## The Whip.....WP01

- Powerful mixer degasses your wine quickly and easily
- Uses a standard 3/8" variable speed drill (not included)
- Very efficient and economical
- Safe with glass

## Racking Tubes

Arguably the best racking tubes available, these clear acrylic tubes are a perfect accompaniment to our bottle fillers. They are carefully bent at the top and include a press-on style of anti-sediment tip. These tips will not fall off with repeated use.

### Sizes available:

• 3/8" dia. x 24" long (19L/5 US Gal carboy).....SE05

• 3/8" dia. x 30" long (23L/6 US Gal carboy & demijohn).....SE06

• 1/2" dia. x 30" long (23L/6 US Gal carboy & demijohn) – rack 5 Gal in 3 minutes.....SE07

## Racking Tube Clamps

This unique spring-loaded clamp holds the racking tube in place during siphoning.

- Universal design fits carboys, pails and jugs

### To use:

1. Start the siphon with the racking tube well above the sediment. If using a bucket, tip of racking tube should rest against far wall of bucket.

2. Slide racking tube to lowest corner.

### Sizes available:

• 3/8".....SE08

• 1/2".....SE09

## Racking Tube Tips

• 3/8" Regular.....SE05-01

• 1/2" Regular.....SE07-01
